4. Suggested Demo Script

Employee journey: Show the visual goal canvas, AI-assisted goal creation, 100% weightage validation, and quarterly actual logging.

Manager journey: Review direct-report goals, approve or return goals, observe approval locks, log check-ins, and export CSV.

Admin / HR journey: Open governance analytics, push shared KPIs, inspect audit and notification logs, and evaluate escalations.

5. Architecture Diagram

System design: browser users, Next.js App Router/API routes, signed cookie auth, Supabase Postgres, optional OpenAI goal generation, and integration logs.
